

MRC Newsletter 1st Quarter 2005

Group Performance

There was a significant improvement in the Group's performance for the financial year that ended December 2004.

The details of the financial results were published in hkgem.com. The Stock Code is 8070.

New Clients

3 new contracts and 2 upgrade contracts were signed in the first quarter of 2005.

The new contracts include:-

- **A Multi-national Company.**

The system implementation will include all their Asia Pacific locations, including Hong Kong, PRC (including 9 cities), Korea, India, Singapore, Malaysia, Labuan, Taiwan, Thailand and New Zealand.

All information will be stored on one single server located in Hong Kong which allows all overseas offices access the system by browser via the Internet.

This is the second recent regional contract we have signed. The previous regional contract we signed was in Dec. 2004

- **A Major Property Developer.**
- **A US Trading Company.**

Forthcoming Activities

An MRC User Group meeting is scheduled to be held on June 3, 2005. The meeting will be a half-day meeting. All existing customers are invited. Details of the seminar will be sent to all existing customers and potential customers in May 2005.

Staff

In order to cope with our growth, we welcome the following new employees.

Sales Department:

- Aki, Ching Kam Chau, Account Executive, Bachelor of Engineering (Computer Engineering), City University of Hong Kong.
- Jerry, Chong Ming Lai, Account Executive, Bachelor of Engineering (Information Technology), City University of Hong Kong.

Customer Support Department:

- Hiko, Chan Ka Ho, Technical Consultation, Bachelor of Commerce (Business Information System), University of Wollongong.
- Dick, Chan Chi Wai, Technical Consultation, Bachelor of Science (Applied Physics), Hong Kong Baptist University.

R&D

R&D staff has been invited by Microsoft to attend various technical seminars on their new products. MRC is currently testing our software under MS SQL 2005, which is scheduled to be released in November 2005. MRC will ensure that our system can run under all new releases from Microsoft.
